BRILLIANCE
ENGINEERING CONSULTANCY

شركة المتألق للاستشارات الهندسية

A detailed architectural line drawing of a building interior, showing a perspective view of a long, narrow space. The drawing features a grid of lines representing walls, floors, and ceilings, with various rooms and structural elements indicated by different line weights and patterns. The drawing is rendered in a light, sketchy style on a white background.

Quality Policy Statement

Quality Policy Statement

Our quality policy is strongly driven by the following management principles and behaviors:

01

build a mutually profitable relationship with our Stakeholders, ensuring their long term success, through the understanding of their needs and the needs of their customers as well.

02

Achieve our commitments for quality, cost, and schedule.

03

Drive continual improvement and innovation based upon efficient business processes, well-defined measurements best practices, and customer surveys.

04

Enhance the systematic research and use of best preventive practices at all levels and ensure reliable risk management.

05

through appropriate development programs and show strong management involvement and commitment.

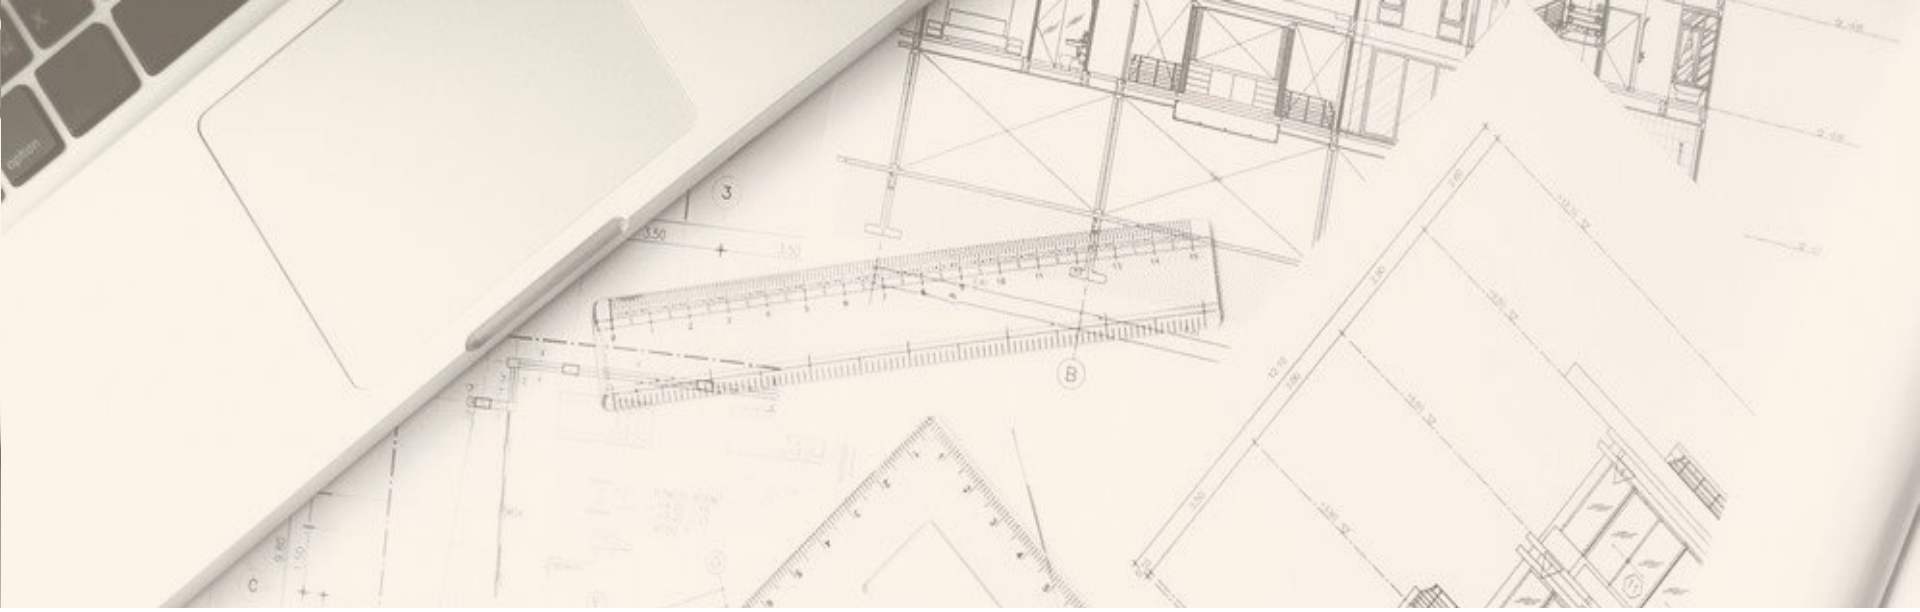

06

Develop staff competencies, creativity, empowerment, and accountability

Quality Policy Statement

Our quality policy is strongly driven by the following management principles and behaviors:

Since the methodology and approach of the design of a project, such as this, is somewhat dependent on the philosophy of the firm and its technical and managerial staff who will be involved in the planning and design, we would like to present our firm's design philosophy to projects, and what we view as the role of the Consultant encompassing time/cost control, as well as our firm's quality assurance plan

METHODOLOGY

METHODOLOGY

DESIGN & SUPERVISION PHILOSOPHY

DESIGN & SUPERVISION PHILOSOPHY

Brilliance Engineering Consultancy Company BRECC primary goal in the design & Supervisor of its related services, answers modern technological trends, conforms to the Client's functional needs, and keeps operating costs at a reasonable level, but most important, deliverables will meet the Client's requirements.

VALUE ENGINEERING

Value engineering is the process of providing the same quality building and features at less expense. It is a creative, organized effort, which analyzes the requirements of a project for the purpose of achieving the essential functions at the lowest total costs (capital, staffing, energy, METHODOLOGY maintenance) over the life of the project. Through a group investigation, using experienced, multi-disciplinary plenary teams, value and economy are improved through the study of alternate design concepts, materials, and methods without compromising the functional and value objectives of the client. Value engineering is a commitment to provide best value to the Owner.

At Brilliance Engineering Consultancy Company BRECC we identify opportunities to remove unnecessary costs in projects while assuring that quality, reliability, and other critical factors will meet or exceed the customer's expectations without sacrificing needed performance levels.

METHODOLOGY

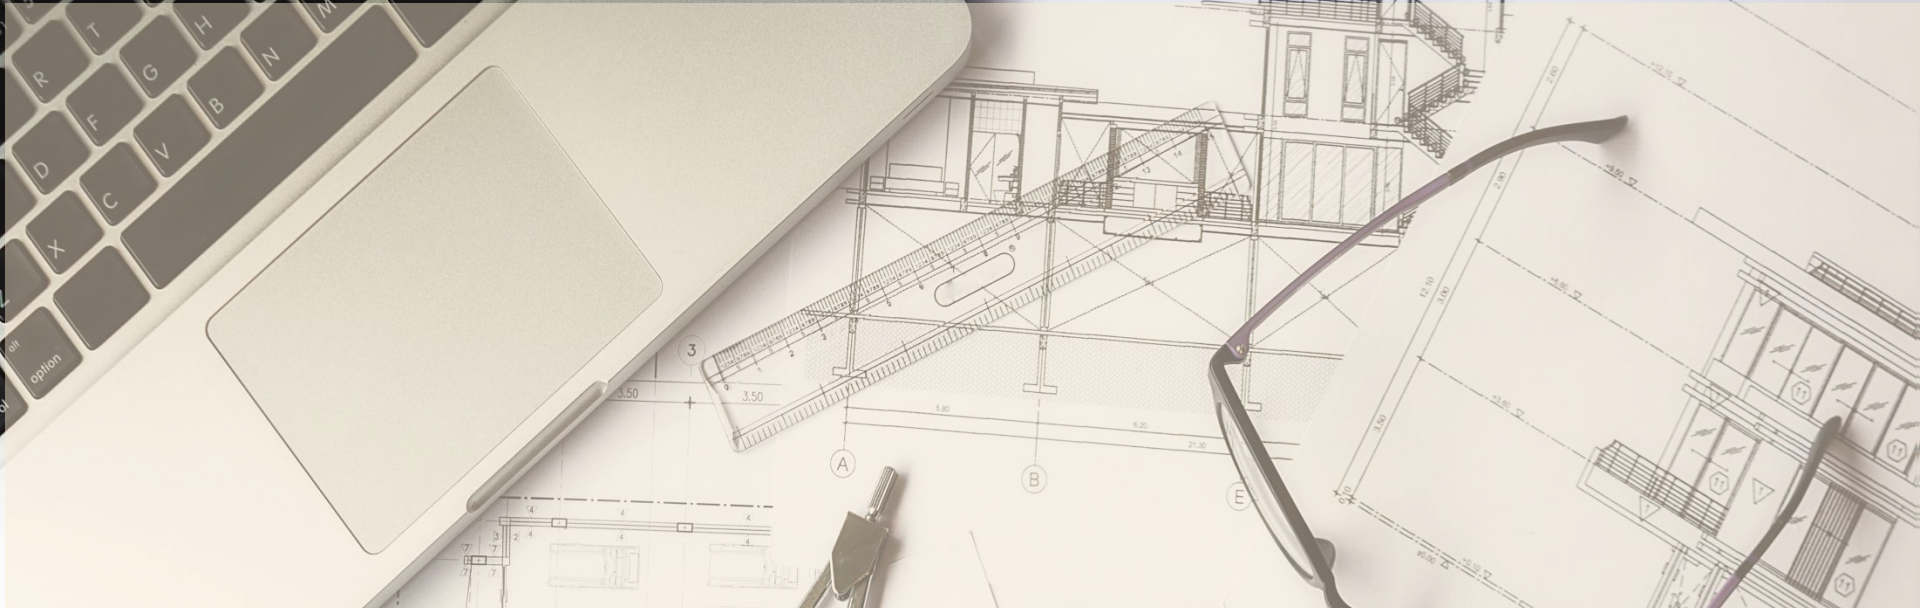

TIME / COST CONTROL

The philosophy of time/cost control, which is employed by the Consultant, will be entrusted through the direct management of a single person. Our Design & Supervision Team comprehends this philosophy and has the attitude that the Client's schedule and cost should be controlled within the established quality level while taking into consideration the Project's functional design requirements.

QUALITY ASSURANCE / QUALITY CONTROL PLAN

Brilliance Engineering Consultancy Company BRECC adopts a Comprehensive Quality Management System [QMS] that is comprised of planned and systematic actions and standard office procedures necessary to provide adequate confidence that all professional activities are being carried out according to the specified project requirements and in strict compliance with the applicable laws, regulations, codes, standards, and policies.

OUR PROJECTS

OUR PROJECTS

Brilliance Engineering Consultancy Company BRECC has contributed to the creation and development of projects of value and quality that enrich the lives of its beneficiaries in various regions of the Kingdom of Saudi Arabia.

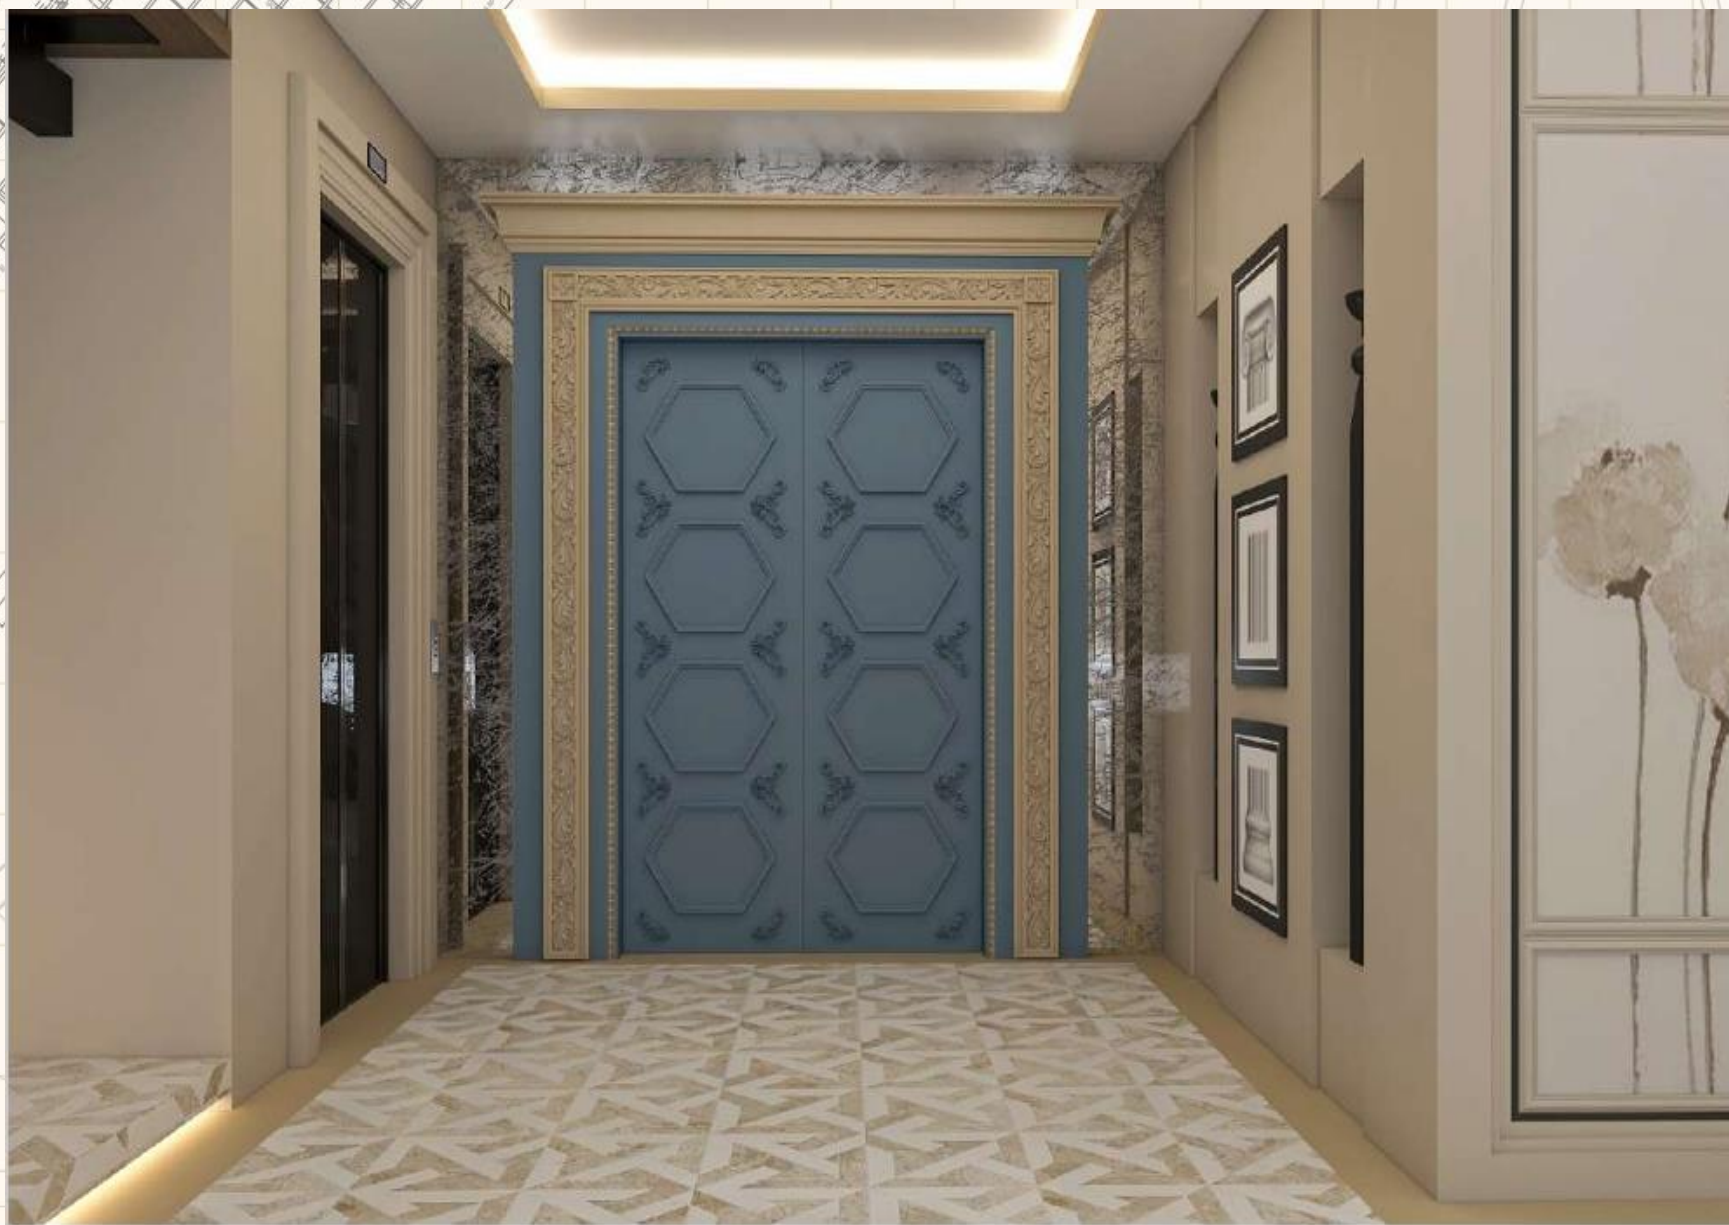

A photograph of two men in white hard hats and business attire shaking hands on a construction site. The background shows a multi-story building under construction with a yellow crane. The image is overlaid with a semi-transparent dark blue rectangle.
